

Certificate of Achievement Program Mentor Application

Name

College

e-mail

Phone

How long have you been in a Staff, Program and Organizational Development (SPOD) position?

What is your current job title?

Identify your area(s) of experience which you're willing to mentor someone:

- Faculty Development programming
- Support Staff Development Programming
- Organizational Development
- No preference

Briefly describe the program you are most proud of developing during your SPOD experience?

Do you have a request for a specific NCSPOD Certificate Program participant? (list up to three choices or criteria to help us with a match)

Are there specific programming goals you would like us to consider in making a match with a participant?

The certificate process allows for intensive training during the following activities. Which programs might you plan to attend?

- Summer Institute (July 9 - 12, 2007)
- IPDW (March 7 – 8) affiliated with 4C/SD conference (March 8 – 10)

Attendance at these programs may provide for additional “face-to-face” time with your participant. They are not required, but are certainly recommended if you are available!

(If you would like for us to provide information about the program to your supervisors, we will work with you to make that connection.)

Please forward completed application to:
